already established as a leading visual reference in dermatology the atlas of clinical dermatology is now thoroughly revised throughout designed for trainee and practising dermatologists and dermatopathologists the atlas combines illustrations of the common skin disorders and where relevant their differential diagnoses with a structured and integrated text the book concentrates on the clinical aspects of skin

diseases with emphasis on how the diagnosis may be made

turn to the world's most popular dermatology atlas for the quick comprehensive diagnosis and treatment of skin problems. A Doody's core title essential purchase for 2011, this atlas uses high quality photographs and well written brief synopses to cover an enormous amount of information about skin diseases in one book. This atlas combines over 900 color photographs with succinct descriptions of skin diseases and systemic diseases with skin manifestations to create the most useful single reference in the field. This is the one book I would recommend to a non dermatologist learning or practicing medicine in any field in any country for dermatologists as well. It is useful as a quick and easy reference guide. 3 stars. Doody's review service covering the full range of conditions from rashes to skin lesions and disorders of the hair, nail and mucosa. Fitzpatrick's is a unique combination of text, clinical reference and color atlas, one that gives you the best quality and most varied photographs of skin disorders available anywhere. The book features a consistent format featuring key facts pertaining to epidemiology, clinical manifestations, physical exam, diagnosis and treatment, each paired with several clear photographs to show how the condition appears. Plus boxed overviews of each disease category with severity specific icons. Features 1500 high quality full color images. Greater emphasis on depicting conditions and disorders across a wide range of skin types. Up to the minute coverage of important new topics: pityriasis rubra pilaris, palmoplantar keratosis, nevus lipomatous superficialis, acquired digital fibromatosis, skin signs of renal insufficiency, skin reactions in organ transplantation, new therapeutic recommendations including biologic agents for eczema and dermatitis, new regulations for retinoids and herbal products.

Dermatology Training: The Essentials helps readers understand what is required to work effectively in a demanding clinical dermatology training programme developed by the British Association of Dermatologists and British College of Dermatology. This accessible textbook covers all key themes outlined in the 2021 Joint Royal Colleges of Physicians Training Board (JRCPTB) curriculum. The fundamentals of professional development, clinical practice, general dermatology, therapeutics and procedural dermatology, and specialist areas of dermatology relevant to all UK and international trainees and healthcare professionals are addressed in 29 reader friendly chapters. Throughout this highly practical textbook, the expert authors provide tips and advice for handling common clinical situations, developing leadership skills, getting into research and gaining surgical experience, as well as key pearls and pitfalls. The book contains over 70 specialty certificate exam (SCE) questions to assist in exam preparation and includes contributions from current trainees that offer real insights into day-to-day dermatology training. A must have for all those involved in the dermatology training process, including educational supervisors, this textbook provides detailed descriptions of the key themes that trainees in dermatology need to understand. Features over 500 clinical images, tables and figures, including disease presentations in various skin types, and highlights relevant issues relating to skin diversity. Aligns with the

new capabilities in practice cips assessment tool which evaluates the trainee's ability to deliver and perform in the workplace dermatology training the essentials is highly recommended reading for all trainees in dermatology doctors taking the certificate for eligibility for specialist registration cesr route to accreditation in dermatology general practitioners training for an extended role gpver and junior doctors and medical students considering a career in dermatology
